**REQUEST FOR CORRECTED FILING RECEIPT**

Commissioner for Patents  
United States Patent and Trademark Office  
Office of Initial Patent Examination  
Customer Service Center  
Washington DC 20231

Dear Sir:

Applicants hereby request a Corrected Filing Receipt be issued for the above referenced patent application. The Patent Office has misstated the filing fee received and the number of total claims.

This application is a divisional of U. S. application Serial No. 09/620,606 (the parent application), which is a divisional of U. S. application Serial No. 08/916,692 (the grandparent application). The grandparent application contained claims 1 – 80. The parent application was filed with a preliminary amendment which added claims 81 – 465. That preliminary amendment (a copy of which is enclosed herewith) was inadvertently omitted at the time that the instant application was filed, but was incorporated by reference by the Utility Application Transmittal (Form PTO/SB/05).

A preliminary amendment filed in the instant application canceled claims 1 – 442, leaving claims 443 – 465 for examination. Accordingly, applicants respectfully

request that the total number of claims be listed as 23 and the filing fee received be listed as \$764 on the Filing Receipt.

A copy of the original Filing Receipt with the corrections marked in red ink is enclosed.

Also enclosed is a return postcard. Please date stamp the postcard and return it to us to acknowledge receipt of this Request.

The Commissioner is hereby authorized to charge any underpayment or credit any overpayment to our Deposit Account No. 20-0888. A duplicate copy of this Transmittal letter is enclosed.

Respectfully submitted,

Edward L. Pencoske

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

**PLEASE NOTE the following information about the Filing Receipt:**

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
